

Holiday Special!

As a special gift to our patients, we are offering a 10% courtesy for check or cash and a 7% courtesy for credit cards for any restorative work done by Dr. Sowell from now till the end of the year. In fact, if you make payment before December 16th, 2010 you can have the treatment done in 2011. We appreciate so much your support and want to give back on this holiday season to our valued loyal patients.

Patient Comfort

Dr. Sowell has merged the benefits of Laser Dentistry with Oral Sedation to create what is called "The Dr. Sowell Method"™. Some patient's fear is that they will have pain during and after treatment. Oral Sedation that is used in the office eliminates the "fear of the unknown" issue as the drugs block out the ability to experience anxiety. Patients can talk and function although they are sleepy in a mellow state, but they do not remember a lot and are not aware of time. The net result is they have a good rest while in the office with the ability to achieve excellent dental health. This has taken away the "anxiety issue" during treatment. Then Dr. Sowell has bought the most Advanced Dental Laser on the market "The Biolase MD", this laser is so kind to the tissue that patients never have any discomfort after treatment no matter what we do from a filling to implants and gum surgeries. The beauty is patients can go back to work the next day to their jobs totally comfortable. Using the two concepts together in a unique way Dr. Sowell has developed the "Dr. Sowell Method™". I'm very proud to offer you this service- making quality dental health totally convenient and comfortable in today's world.
